Strategies and Functions of IQAC

The IQAC of our college has played a vital role in channelizing the efforts of all its stakeholders towards quality enhancement and sustenance. It has strived to implement all the recommendations given by NAAC Peer Team during the previous cycle of NAAC Assessment and Accreditation. The IQAC has meticulously institutionalised all the following strategies and functions mentioned in the NAAC guidelines:

Strategies of IQAC

(a) Ensuring timely, efficient and progressive performance of academic, administrative and financial units

The IQAC ensures the optimal progression of students and measures it periodically. The teachers are encouraged to write research papers, participate in seminars, conferences, and CAS- like orientation, refresher courses and FDP. IQAC organises skill development training programmes like the Use of ICT and IFMIS to upgrade the professional competence of the staff. The IQAC also provides a sound basis for decision making in academic, administrative and financial matters.

(b) Adoption of relevant and quality academic and research programmes

With the introduction of NEP-2020, eight vocational, sixteen elective, a number of certificate, add on, value added, courses have been started to provide inter-disciplinary options and academic flexibility. The college has opened its Local Chapter on SWAYAM NPTEL. To promote research culture in the institution, the IQAC motivates the advanced learners and faculty to register for PhD, write research papers and participate in seminars and conferences.

(c) Ensuring equitable access to and affordability of academic programmes to various sections of the society

Equitable access is embedded in the vision statement and it is also the distinctiveness of the institution. Several measures have been taken to ensure equitable access to and affordability of academic programmes to various sections of society. *College Chalo Abhiyan*, multi-faced holistic quality education, various welfare schemes, attractive infrastructure, learning resources, MP Bhoj Open University, Bhopal and IGNOU Study Centres are there to increase accessibility and affordability.

(d) Optimization and integration of modern methods of teaching and learning

Experiential, participative and, collaborative learning is ensured through Field Project, Internship, Apprenticeship and Community Engagement. Study tours, field trips, expert lectures, classroom seminars, peer teaching, problem solving, group discussions and many other methods have enriched the learning experience of the students. IQAC has motivated the teachers to use ICT to make learning more individualised, creative and dynamic. The teachers have participated in the FDP on E-Content Development and have developed e-content for the LMS of DHE, GoMP.

(e) Ensuring creditable assessment and evaluation process

ICT has been introduced in internal assessment. The IQAC ensures the implementation of regulatory mechanism for prompt action on possible errors to make the internal and external evaluation process creditable and transparent.

(f) Ensuring Proper allocation, adequacy and maintenance of support structure and services

The SVCGC has organised a large number of short-term job-oriented training programmes, expert lectures and coaching classes to enhance the employability of the students. The IQAC ensures the adequate allocation and optimum utilisation of funds for infrastructural augmentation and maintenance. The construction of additional classrooms, new wings for Commerce and Science, open stage, open gym, open auditorium and purchase of equipment for science laboratories, projectors, computers and sport items are the explicit outcomes of the planning and strategies of IQAC.

(g) Sharing of research findings and networking with other institutions

To keep the academic activities in a more realistic perspective and to expand the scope of learning experience of students, IQAC motivated different departments to establish MOUs with reputed institutions, Government and Non-Government organisations. The range of these agreements and understandings include training, student exchange, faculty exchange research and resource sharing etc. A large number of collaborative activities have been conducted under these MOUs.

Functions of IQAC
